

Curriculum vitae

Gerben Op den Kamp

Profile

My day starts with going through the latest tech developments. As an ICT-Media design student, I like to use my expertise in challenging assignments and to come to a solution both individually and in a team. At the moment I use this for various projects besides my study. I am driven to further refine my knowledge and apply it in practice. Because of my proactive and critical attitude, I dare to ask questions and set priorities where necessary.

Personalia

Name: Gerben Op den Kamp

Birthday: 20 May 1999

Birthplace: Heteren

Adress: Bondstraat 13
5612 HX Eindhoven
