

Gerben Op den Kamp

Full-stack web developer with 7+ years of experience in both frontend and backend technologies, including Laravel, VueJS, and CSS. Proven track record in delivering user-centric, scalable web solutions for clients across various industries. Seeking to leverage my expertise in full-stack development and passion for innovation in a dynamic development team.

PROJECTS

Mumster 2024.03 - 2024.08

A Sustainable Fashion Agency Platform Focused On Promoting Eco-Friendly Fashion Practices. I Helped Develop A Responsive, User-Friendly Website, Integrating Custom Features To Highlight Sustainable Brands And Initiatives, Supporting The Agency's Mission To Drive Positive Change In The Fashion Industry.

Beyond Selection 2021.09 - Present

I Conceived And Built This Applicant Tracking System From The Ground Up, Designed To Create Objective And Sustainable Matches Between Businesses And Candidates. The Platform Streamlines The Hiring Process, Removes Human Bias From Decisions For Better Recruitment Outcomes.

Ownhomepage 2022.09 - 2023.2

A Platform That Allows Users To Access And Manage Their Personal Links Across All Devices. I Developed Key Features Like Custom Themes And Icons, Optimizing The User Interface For Seamless Access And Personalization, With More Features Planned For Future Updates.
