

Gerben Op den Kamp

Full-stack web developer with 7+ years of experience in both frontend and backend technologies, including Laravel, VueJS, and CSS. Proven track record in delivering user-centric, scalable web solutions for clients across various industries. Seeking to leverage my expertise in full-stack development and passion for innovation in a dynamic development team.

EXPERIENCE

2022.02 - Present

Digital Natives - Amsterdam

Medior Full-stack Developer 2023.08 - Present

Junior Full-stack Developer 2022.08-2023.07

Full-stack Developer - internship 2021.02-2021.08

I Have Been Involved In A Variety Of Full-Stack Development Projects Across Different Sectors, Delivering Tailored Digital Solutions Such As Custom Websites Or Platforms. My Role Has Included Being Lead Developer For Both The Backend Architecture And Frontend Design, Optimizing User Experience And Ensuring The Scalability And Performance Of Web Platforms. I Have Collaborated Closely With Product Owners To Meet Their Specific Needs. With The Team I Have Worked On Projects For Companies Such As WWF, Voordekunst Hotelschool, Filmfonds, Medpeers

2019.08 - Present

Odk_webdesign

Full stack developer

I Take On (Fun) Freelance Projects Where I Manage The Entire Development Process, From Design To Implementation. This Allows Me To Experiment With New Technologies, Continually Enhancing My Skills And Staying Ahead Of Industry Trends.

2020.02 - 2020.07

DevelopMen - Eindhoven

Web developer - Internship

During This Internship I Mainly Worked With WordPress Websites. Additionally I Worked On A Thesis, Which Researched Creating A More Efficient And Rapid Method For Providing Project Estimates To Clients.

2016.09 - 2017.02

Ndevr Ltd - Birmingham

Junior software developer - Internship

Here I Gained My First (International) Experience, Working On Software Solutions With A Focus On MySQL Architectures And C#. I Worked On Database Designs, Database Optimisation And Managing A Team.

SKILLS

Laravel	VueJS
PHP	Javascript
CSS/SCSS	TailwindCSS
GraphQL	RestAPI
Git(hub/lab)	React + Expo
UX/Accessibility	CraftCMS
Agile/Scrum	Multi tenancy

FREE TIME PROJECTS

2024.03 - 2024.08

Mumster

A Sustainable Fashion Agency Platform Focused On Promoting Eco-Friendly Fashion Practices. I Helped Develop A Responsive, User-Friendly Website, Integrating Custom Features To Highlight Sustainable Brands And Initiatives, Supporting The Agency's Mission To Drive Positive Change In The Fashion Industry.

2021.09 - Present

Beyond Selection

I Conceived And Built This Applicant Tracking System From The Ground Up, Designed To Create Objective And Sustainable Matches Between Businesses And Candidates. The Platform Streamlines The Hiring Process, Removes Human Bias From Decisions For Better Recruitment Outcomes.

2022.09 - Present

Ownhomepage

A Platform That Allows Users To Access And Manage Their Personal Links Across All Devices. I Developed Key Features Like Custom Themes And Icons, Optimizing The User Interface For Seamless Access And Personalization, With More Features Planned For Future Updates.
